<i>Preface</i>	xviii
<i>Acknowledgements</i>	xix

Part I ■ Introduction to Economics 1

Chapter 1 *How Economists Think* 3

1.1 What? How? Who? For Whom?	5
Deciding What to Produce: Opportunity Cost	5
Applying Economic Ideas 1.1	
<i>The Opportunity Cost of a College Education</i>	7
Deciding How to Produce: Efficiency and Entrepreneurship	8
Deciding Who Will Do Which Work: The Division of Labor	11

Who Said It? Who Did It? 1.1	
<i>David Ricardo and the Theory of Comparative Advantage</i>	15

Deciding for Whom Goods Will Be Produced	16
--	----

1.2 Coordinating Economic Choices	17
A Non-Economic Example	17
Spontaneous Order in Markets	19

Who Said It? Who Did It? 1.2	
<i>Adam Smith on the Invisible Hand</i>	20

The Role of Hierarchy	20
-----------------------	----

1.3 Economic Method	21
Theories and Models	21
Using Graphs	22
Theory and Evidence	25
Theories and Forecasts	25
Theory and Policy	26

Summary	28
---------	----

Key Terms	30
-----------	----

Problems and Topics for Discussion	31
------------------------------------	----

Case for Discussion	33
<i>Cow Power</i>	

Endnotes	34
----------	----

Appendix to Chapter 1: *Working with Graphs*

1.4 Pairs of Numbers and Points	36
1.5 Slopes and Tangencies	37
1.6 Using Graphs to Display Data	39
1.7 Using Graphs to Display Relationships	43
1.8 Packing Three Variables into Two Dimensions	43
A Non-Economic Example	44
Shifts in Curves and Movements along Curves	45
1.9 Study Hints	46
Making Your Own Graphs	47
A Reminder	47

Chapter 2 *Supply and Demand: The Basics*

2.1 Demand	49
The Demand Curve	50
Shifts in the Demand Curve	51
2.2 Supply	57
The Supply Curve	57
Shifts in the Supply Curve	60
2.3 The Interaction of Supply and Demand	62
Market Equilibrium	62
Shortages	64
Surpluses	65
Changes in Market Conditions	65
Equilibrium as Spontaneous Order	67
Economics in the News 2.1	
Chocolate Lovers Keep Nervous Eye on Cocoa Prices	68
2.4 Some Closing Thoughts	69
Who Said It? Who Did It? 2.1	
Alfred Marshall on Supply and Demand	70
Summary	71
Key Terms	72
Problems and Topics for Discussion	73
Case for Discussion:	75
Will CNG Power Your Next Car?	
Endnotes	76

Chapter 3

Supply, Demand, and Elasticity

78

3.1 Elasticity

79

Price Elasticity of Demand

80

Calculating Elasticity of Demand

82

Varying- and Constant-elasticity Demand Curves

84

Determinants of Elasticity of Demand

86

Income Elasticity of Demand

88

Cross-elasticity of Demand

89

Price Elasticity of Supply

89

3.2 Applications of Elasticity

91

Gas Tax or Mileage Standards?

91

Elasticity and Prohibition

94

Summary

98

Key Terms

99

Problems and Topics for Discussion

100

Case for Discussion

102

*Does a Higher Price Promote Energy Efficiency? Results from
a Natural Experiment in New York City*

Endnotes

103

Part II ■ Markets and Government

105

Chapter 4

Choice, Markets, and Government

106

4.1 The Structure of Economic Theory

107

Objectives, Constraints, and Choices

107

Economic Theory and Rationality

109

Full and Bounded Rationality

111

Self-regarding versus Other-regarding Preferences

112

Applying Economic Ideas 4.1

Ultimatums, Dictators, and Other Games

113

4.2 Market Performance and Market Failure

114

Market Performance

114

Transaction Costs and Market Performance

116

Market Failure

118

<i>Applying Economic Ideas 4.2: Private Provision of Public Goods</i>	121
4.3 The Economic Role of Government	123
<i>The Market Failure Theory of Government</i>	124
<i>The Public Choice Theory of Government</i>	124
<i>Neoclassical and Other Approaches to Microeconomics</i>	126
Summary	128
Key Terms	129
Problems and Topics for Discussion	130
Case for Discussion	132
<i>A Price That's Too Good May Be Bad</i>	
Endnotes	133

Chapter 5

Understanding the Choices Consumers Make 134

5.1 Utility and the Rational Consumer 135

Utility 135

Constraints on Opportunities 136

Economics in the News 5.1: What Makes Us Choose? 137

 Diminishing Marginal Utility and Consumer Choice 138

 From Consumer Equilibrium to the Law of Demand 139

5.2 Substitution and Income Effects 140

 The Substitution Effect 140

 The Income Effect 141

 Income and Substitution Effects and the Demand Curve 142

Applying Economic Ideas 5.1: Testing Consumer Demand Theory with White Rats 143

 Applications of Income and Substitution Effects 145

 The Demand for Safety 145

 Children as Durable Consumer Goods 146

5.3 Consumer Surplus 147

 The Demand Curve as Willingness to Pay 147

 Measuring the Surplus 148

 Consumer Surplus, Producer Surplus, and Gains from Exchange 149

 Application: The Excess Burden of a Tax 150

Summary 153

Key Terms 154

Problems and Topics for Discussion 155

Case for Discussion 156

The Food Panic of 2010: Gone but Not Forgotten

Endnotes 157

Appendix to Chapter 5: *Indifference Curves*

5.4 Constructing an Indifference Curve	158
5.5 Some Characteristics of Indifference Curves	159
5.6 The Budget Line	163
5.7 A Graphic Representation of Consumer Equilibrium	165
5.8 Derivation of the Demand Curve	166

Chapter 6

The Economics of Climate Change and Environmental Policy

	168
6.1 Pollution Abatement as a Problem of Scarcity	170
The Costs of Pollution Abatement	170
Marginal External Cost	172
The Optimal Quantity of Pollution	172
Problems of Measurement	174
Problems of Rights	176
6.2 Controlling Externalities Through Voluntary Exchange	177
Markets Without Transaction Costs	177
Market Resolution of Externalities in Practice	178
Economics in the News 6.1	
<i>Using Property Rights to Protect the Land</i>	179
Transaction Costs as Barriers to Voluntary Resolution of Externalities	181
6.3 Controlling Externalities Through Regulation	182
Command and Control	182
Emission Charges (Pollution Taxes)	183
Cap and Trade	185
6.4 Environmental Policy and Public Choice	185
Environmental Policy in a Democracy	186
Vote Trading and Special Interests	187
Applying Economic Ideas 6.1	
<i>Cap and Trade for Acid Rain</i>	190
Summary	192
Key Terms	193
Problems and Topics for Discussion	194
Case for Discussion	195
<i>Fill It Up with Ethanol?</i>	
Endnotes	197

Chapter 7

Global Trade and Trade Policy 202

7.1 The Theory of Comparative Advantage: Review and Extensions 205

Numerical Approach 205

Graphical Presentation 207

The World Production Possibility Frontier 209

Effects of Trade 209

Does Comparative Advantage Really Work? 210

Comparative Advantage with Multiple Factors of Production 210

The Importance of Demand 211

Comparative Advantage and “Competitiveness” 211

7.2 Trade Policy and Protectionism 214

Moves toward Freer Trade since World War II 214

Applying Economic Ideas 7.1

The Korea-U.S. Free Trade Agreement, Five Years in the Making 215

Countertrends: Other Forms of Protectionism 216

Understanding Protectionism: Impacts of Trade on Income Distribution 217

Protectionism and Public Choice 219

A Race to the Bottom? 220

Summary 223

Key Terms 224

Problems and Topics for Discussion 225

Case for Discussion 226

Has the Brazil-U.S. Cotton Dispute Finally Been Resolved?

Endnotes 227

Part III ■ Economics of the Firm 229

Chapter 8

Production and Cost 230

8.1 Costs and Profits 231

The Profit Motive 232

The Nature of Costs 232

Profit, Rents, and Entrepreneurship 237

Fixed Costs, Variable Costs, and Sunk Costs 238

8.2 Production and Costs in the Short Run 240

<i>Production with One Variable Input in the Short Run</i>	240
<i>From Marginal Physical Product to Marginal Costs</i>	242
<i>More Than One Variable Input</i>	244
<i>A Set of Short-Run Cost Curves</i>	244
<i>Some Geometric Relationships</i>	247
8.3 Long-Run Costs and Economies of Scale	248
<i>Planning for Expansion</i>	248
<i>Economies of Scale</i>	250
Summary	253
Key Terms	254
Problems and Topics for Discussion	255
Case for Discussion	257
<i>Tennis at the Grand Slam</i>	
Endnotes	258

Appendix to Chapter 8:

Cost and Output with Two Variable Inputs

8.4 Substitution of Inputs	259
8.5 Diminishing Returns in Substitution	260
8.6 Choosing the Least-Cost Production Method	261
8.7 Responses to Changes in Input Prices	262
8.8 Varying Output	263
8.9 Deriving a Cost Curve from the Isoquant Map	265

Chapter 9

Supply under Perfect Competition

9.1 Perfect Competition and Supply in the Short Run	269
<i>The Constraints</i>	269
<i>Short-Run Profit Maximization for the Firm</i>	271
<i>Minimizing Short-Run Losses</i>	274
<i>Shutting Down to Cut Short-Run Losses</i>	276
<i>Economics in the News 9.1</i>	
<i>Changing with the Seasons</i>	277
<i>The Firm's Short-Run Supply Curve</i>	278
<i>The Industry's Short-Run Supply Curve</i>	280
9.2 Long-Run Equilibrium under Perfect Competition	281
<i>Long-Run Equilibrium for a Competitive Firm</i>	281
<i>Industry Adjustment to Falling Demand</i>	283

Industry Adjustment to Rising Demand	285
The Elasticity of Long-Run Supply	287
9.3 Market Performance under Perfect Competition	288
What to Produce?	289
How to Produce	290
Other Aspects of Market Performance	291
Summary	292
Key Terms	293
Problems and Topics for Discussion	294
Case for Discussion	295
Independent Truckers as a Perfectly Competitive Industry	
Endnotes	296

Chapter 10

The Theory of Monopoly

10.1 Varieties of Monopoly	300
Economics in the News 10.1	
China's Fragile Rare Earth Monopoly	301
10.2 Simple Monopoly	302
Constraints Faced by Monopoly	303
Output, Price, and Marginal Revenue under Simple Monopoly	303
Finding the Point of Maximum Profit	305
Profit Maximization or Loss Minimization?	307
10.3 Profit Maximization in the Long Run	309
Long-Run Equilibrium without Threat of Entry	309
Open Monopoly, Entrepreneurship, and Limit Pricing	310
Closed Monopoly and Rent Seeking	311
10.4 Complex Pricing Strategies	313
Price Discrimination	313
Fairness and Price Discrimination	315
10.5 Two-part Pricing	315
10.6 Market Performance under Monopoly	317
What to Produce: Consumer and Producer Surplus	317
How to Produce: Average Total Cost in Monopoly Equilibrium	320
For Whom to Produce: Does Monopoly Promote Inequality?	321
The Bottom Line	322
Summary	323
Key Terms	324
Problems and Topics for Discussion	325

Case for Discussion	326
<i>Mass Transit as a Subsidized Monopoly</i>	

Chapter 11

Rivalry, Oligopoly, and Monopolistic Competition 328

11.1 What Determines Market Structure?	330
Economies of Scale	330
Barriers to Entry	331
Sunk Costs and Contestability of Markets	332
11.2 Interdependence and Collusion in Oligopoly	332
Oligopolistic Interdependence	333
Cartels	333

Oligopoly as a Game	336
Coordination without Collusion	338
Market Performance under Oligopoly	340

11.3 The Theory of Monopolistic Competition	341
Profit Maximization under Monopolistic Competition	342
The Performance of Monopolistically Competitive Industries	344

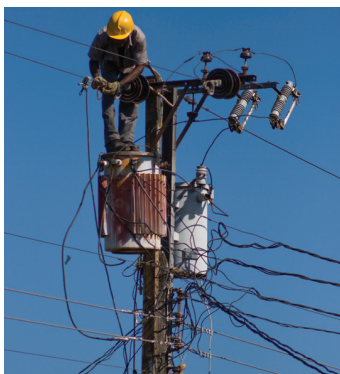

Summary	345
----------------	-----

Key Terms	346
------------------	-----

Problems and Topics for Discussion	346
---	-----

Case for Discussion	347
<i>Hybrid Cars Star at Auto Show, but Not in Showroom</i>	

Endnotes	348
-----------------	-----

Chapter 12

Regulating Markets 350

12.1 Antitrust Laws and Policies	352
Applying Economic Ideas 12.1	
The Antitrust Laws	352
Antitrust Policy	353
Economics in the News 12.1	
Microsoft versus the Trustbusters	355

Antitrust Reformers	356
Entrepreneurship and Antitrust	357

Who Said It? Who Did It? 12.1	
Joseph Schumpeter on Competition and Entrepreneurship	358

The Future of Antitrust Policy	359
--------------------------------	-----

12.2 Regulation of Natural Monopoly	360
The Policy Problem	360
The Regulatory Solution	360
12.3 Regulation of Competitive Industries	363
Historical Origins	363
Rate and Entry Regulations in Transportation	364
Regulation and Political Rent Seeking	364
Regulatory Reform	365
12.4 Health and Safety Regulation	365
Goals and Values	366
Benefits and Costs	367
Summary	368
Key Terms	369
Problems and Topics for Discussion	370
Case for Discussion	371
<i>Tipping the Balance</i>	
Endnotes	373

Part IV ■ Resource Markets and Income Distribution 375

Chapter 13 *Pricing in Resource Markets*

13.1 Demand for Inputs	378
Objectives and Constraints	378
Marginal Physical Product	378
Marginal Revenue Product	380
Marginal Resource Cost	382
Profit Maximization	382
Resource Demand Curves	384
Changes in Demand for Resources	385
13.2 The Labor Market	386
The Labor Supply Curve	387
The Equilibrium Wage in a Competitive Market	389
The Marginal Productivity Theory of Distribution	390
Monopsony	390
The Marginal Resource Cost Curve	391
Monopsony Profit Maximization	393
13.3 Why Wage Rates Differ	394
Non-Wage Job Characteristics	394

Human Capital	395
Efficiency Wage Theory	396
Applying Economic Ideas 13.1	
Costco versus Sam's Club in the Labor Market	397
13.4 Capital and Interest	398
Capital and Roundabout Production	398
The Rate of Return on Capital	398
Time Preference	399
Interest and the Market for Loanable Funds	399
13.5 Markets for Natural Resources	400
Pure Economic Rent	401
Differential Rent	401
Inframarginal Rents	402
Summary	405
Key Terms	407
Problems and Topics for Discussion	408
Case for Discussion	410
Kansas Ponders Bill to Let Illegal Immigrants Take Unfilled Jobs	
Endnotes	411
	
Chapter 14	
Insurance, Information and Uncertainty	412
Who Said It? Who Did It? 14.1	
Friedrich von Hayek on Markets and Information	414
14.1 Insurance and Risk Pooling	415
Attitudes Toward Risk	415
Applying Economic Ideas 14.1	
Expected Value	416
The Principle of Risk Pooling	418
Application of Risk Pooling to Insurance	419
Asymmetrical Information, Opportunism, and Transaction Costs of Insurance	419
Economics in the News 14.1	
Adverse Selection and the Affordable Care Act	421
14.2 Speculation and Its Role in the Economy	422
Speculation and Risk	423
Futures Contracts and Options	423
The Social Usefulness of Speculation	424
14.3 The Economics of Auctions	426
Types of Auctions	426

<i>The Revenue-Equivalence Theorem</i>	427
<i>The Winner's Curse</i>	429
Summary	430
Key Terms	431
Problems and Topics for Discussion	432
Case for Discussion	434
<i>The Market for Lemons</i>	
Endnotes	435

Chapter 15

Labor Markets, Discrimination, and Public Policy 436

15.1 Labor Unions 437

Applying Economic Ideas 15.1

Labor Unions in the United States: A Brief History 438

Unions, Wages, and Jobs 439

Unions as Political Entities 441

What Else Unions Do 442

15.2 Minorities and Women in the Labor Force 444

Applying Economic Ideas 15.2

Labor-Management Relations 445

An Economic Model of Discrimination 447

Applying Economic Ideas 15.3

Discrimination and the Law in the Jim Crow South 449

Discrimination and Asymmetrical Information 451

Federal Antidiscrimination Policies 452

Occupational Segregation and Gender Inequality 453

Summary 457

Key Terms 458

Problems and Topics for Discussion 458

Case for Discussion 460

Wal-Mart Case Shows Difficulties of Fighting Discrimination Through Class Actions

Endnotes 461

Chapter 16

Income Distribution and Poverty

462

16.1 Income Distribution: Measurement and Trends

465

Measuring Income Distribution

465

U.S. Income Distribution Trends and Their Causes

466

Poverty and Antipoverty Policy

471

Applying Economic Ideas 16.1

Poverty in the United States and Around the Globe

472

Measuring Poverty in the United States

473

16.2 Fighting Poverty through the Labor Market

476

Unemployment Compensation

477

Helping the Poor with Cash and In-kind Transfers

478

Summary

482

Key Terms

483

Problems and Topics for Discussion

484

Case for Discussion

486

San Francisco's Living Wage

Endnotes

487

Glossary
