Brief Table of Contents iii

Preface xii

## PART 1: ORIGINS AND METHODS OF PSYCHOLOGY

### Chapter 1

#### The Origins and Methods of Psychology 1

- 1.1 The Study of Psychology 1
- 1.2 Definition of Psychology 2
  - 1.2a Psychology as a Science 2
  - 1.2b The Study of Behavior 4
  - 1.2c The Study of Humans and Other Animals 5
- 1.3 Psychology's History 7
  - 1.3a Structuralism 8
  - 1.3b Functionalism 9
  - 1.3c Psychoanalysis 10
  - 1.3d Behaviorism 11
  - 1.3e Gestalt Psychology 12
  - 1.3f Humanistic Psychology 13
- 1.4 Contemporary Psychology 13
  - 1.4a Fields of Specialization in Psychology 14
  - 1.4b Careers in Psychology 19
- 1.5 The Scientific Method and Behavior 20
  - 1.5a The Purpose of Psychological Research 21
- 1.6 Research Methods 24
  - 1.6a Non-experimental Research Methods 24
  - 1.6b Experimental Research Methods 34
  - 1.6c Ethics in Psychological Experiments 36
  - 1.6d Ethical Guidelines for Research 37

#### 1.7 Statistical Concepts for Research 38

- 1.7a Descriptive Statistics 39
- 1.7b Inferential Statistics 41
- 1.7c Evaluating Opinions, Beliefs, and Scientific Evidence 42

## PART 2: BIOLOGICAL FOUNDATIONS, PERCEPTION, AND SLEEP

### Chapter 2

#### The Biology of Behavior 53

- 2.1 Overview of the Nervous System: Organization and Function 53
- 2.2 Neurons: Basic Units of the Nervous System 55
  - 2.2a Neuron Structure 55
  - 2.2b Neural Transmission 57
  - 2.2c Neuron Electrical Activity 57
  - 2.2d Neurotransmitters and the Synapse 60
- 2.3 The Peripheral Nervous System 65
  - 2.3a The Somatic Nervous System 65
  - 2.3b The Autonomic Nervous System 67
- 2.4 The Central Nervous System —The Brain and Spinal Cord 67
  - 2.4a The Spinal Cord 68
  - 2.4b The Medulla 70
  - 2.4c The Pons 70
  - 2.4d The Cerebellum 71
  - 2.4e The Reticular Formation 71

<b>2.5 The Limbic System</b>	<b>72</b>
2.5a The Amygdala	73
2.5b The Hippocampus	73
2.5c The Septum	73
2.5d The Hypothalamus	74
2.5e The Thalamus	74
<b>2.6 The Basal Ganglia</b>	<b>75</b>
<b>2.7 The Cerebral Cortex</b>	<b>75</b>
2.7a Localization of Cortical Functioning	77
2.7b Lateralization of Function	80
2.7c How the Brain Is Studied	84
<b>2.8 The Endocrine System</b>	<b>87</b>
2.8a The Pituitary Gland	89
2.8b The Thyroid Gland	89
2.8c The Adrenal Glands	89
2.8d The Gonads	90
<b>2.9 Drugs and Behavior</b>	<b>90</b>
2.9a Depressants: Sedatives, Opiates, and Alcohol	91
2.9b Stimulants: Caffeine, Nicotine, Amphetamines, and Cocaine	93
2.9c Hallucinogens: LSD and Ecstasy	95
2.9d Marijuana	96

## Chapter 3

### Sensation and Perception 107

<b>3.1 Principles of Sensation and Perception</b>	<b>107</b>
3.1a Transduction	107
3.1b What Do We Perceive?	108
3.1c Psychophysics	108
<b>3.2 Vision</b>	<b>115</b>
3.2a Light: The Stimulus for Vision	116
3.2b Structure and Function of the Eye	117
3.2c Color Vision	125

<b>3.3 Audition</b>	<b>128</b>
3.3a Sound: The Stimulus for Audition	128
3.3b Structure and Function of the Ear	131
3.3c Theories of Audition	133
3.3d Auditory Localization	134
3.3e Hearing Loss	135
<b>3.4 Gustation and Olfaction</b>	<b>136</b>
3.4a Gustation	137
3.4b Olfaction	138
<b>3.5 The Skin Senses</b>	<b>140</b>
3.5a Pressure	140
3.5b Temperature	141
3.5c Pain	142
<b>3.6 Kinesthesia and Equilibrium</b>	<b>144</b>
<b>3.7 Synesthesia</b>	<b>146</b>
<b>3.8 Perceiving the World</b>	<b>146</b>
3.8a Perceptual Organization	147
3.8b Spatial Perception	151
3.8c Visual Illusions	158
3.8d Perceptual Sets	163

## Chapter 4

### Sleep, Dreaming, and Consciousness 175

<b>4.1 Biological Rhythms</b>	<b>175</b>
4.1a Circadian Rhythms	175
<b>4.2 The Science of Sleep and Dreaming</b>	<b>177</b>
4.2a Stages of Sleep	177
4.2b The Sleep Cycle	181
4.2c Change in Sleep Patterns with Age	182
4.2d Brain Mechanisms of Sleep	182
4.2e The Function of Sleep	185
4.2f Theories of Sleep Function	187
4.2g Dreaming	188

### 4.3 Disorders of Sleep 189

- 4.3a Insomnia 190
- 4.3b Sleep Apnea 191
- 4.3c Narcolepsy 192
- 4.3d Nightmares 192
- 4.3e Sleepwalking 193
- 4.3f Sleep Talking 193

### 4.4 Hypnosis 194

- 4.4a Theories of Hypnosis 195

### 4.5 Consciousness 196

- 4.5a Neurobiology of Consciousness 196
- Suggested Remedies for Insomnia 198

### CHAPTER REVIEW 199

### TERMS AND CONCEPTS 201

### POP QUIZ 202

- 5.3c Reinforcing the Initial Operant Response 223

- 5.3d Punishment and Operant Behavior 225

### 5.4 Comparing Pavlovian and Operant Conditioning 226

- 5.4a Two-Factor Theory of Avoidance Learning 226

### 5.5 Cognitive Influences on Learning 227

- 5.5a Cognitive Processes in Learning 228
- 5.5b Observational Learning 229

### 5.6 Biological Bases of Learning 230

- 5.6a Pavlovian Conditioning of the Aplysia 231
- Pavlovian Conditioning 233

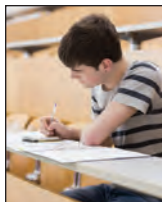

### CHAPTER REVIEW 235

## PART 3: LEARNING, MEMORY, COGNITION, MOTIVATION, AND EMOTION

# Chapter 5

## Learning and Behavior 205

### 5.1 Defining Learning 205

- 5.1a How Learning Takes Place 206

### 5.2 Pavlovian Conditioning 207

- 5.2a Pavlov's Discovery 207
- 5.2b Acquisition of Pavlovian Conditioning 211
- 5.2c Stimulus Contingency and Conditioning 211
- 5.2d CS-UCS Timing and Conditioning 212
- 5.2e Extinction and Reinstatement 215
- 5.2f Stimulus Generalization and Discrimination 216

### 5.3 Operant Conditioning 216

- 5.3a Operant Conditioning in a Skinner Box 217
- 5.3b Reinforcement 218

# Chapter 6

## Memory 243

### 6.1 What Is Memory? 243

- 6.1a Information Processing and Memory 243
- 6.1b Memory Processes 244

### 6.2 A Model of Memory 245

- 6.2a Memory Systems 245
- 6.2b Sensory Memory 247
- 6.2c Short-Term or Working Memory 248
- 6.2d Long-Term Memory 251
- 6.2e Explicit and Implicit Memory 254

### 6.3 Memory as a Dynamic Process 255

- 6.3a Constructive Memory 256
- 6.3b False Memories 257
- 6.3c Schemas 258
- 6.3d Eyewitness Testimony 259
- 6.3e State Dependency 261
- 6.3f Extreme Emotion 262

### 6.4 Forgetting 263

- 6.4a Decay of the Memory Trace 263
- 6.4b Interference 264

- 6.4c Retrieval Failure 265
- 6.4d Motivated Forgetting 266
- 6.4e Diseases that Cause Forgetting 266
- 6.4f Daniel Schacter's Seven Sins of Memory 267

## 6.5 The Biology of Memory 268

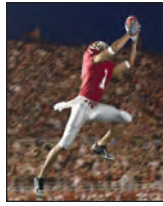

- 6.5a The Hebbian Rule 268
- 6.5b Long-Term Potentiation 269
- 6.5c Neural Structures for Long-Term Memory 270
- 6.5d Where Are Short-Term, Working Memories Processed? 271

# Chapter 7

## Motivation 281

### 7.1 The Nature of Motivation 281

- 7.1a Defining Motivation 282

### 7.2 Motivational Explanations of Behavior 282

- 7.2a Instinct Theory 283
- 7.2b Drive-Reduction Theory 284
- 7.2c Cognitive Theories of Motivation 285
- 7.2d Biological Bases of Motivation 288
- 7.2e Hormones Controlling Hunger 291
- 7.2f Obesity 292

### 7.3 Sensation-Seeking Motivation 294

- 7.3a Optimum Level of Arousal 295

### 7.4 Sexual Motivation and Behavior 296

- 7.4a Biological Bases of Sexual Behavior 297
- 7.4b Psychosocial Factors in Sexual Behavior 298
- 7.4c Sexual Orientation: Homosexuality 299

## Emotion and Stress 309

### 8.1 The Components of Emotion 309

- 8.1a Physiological Arousal 309
- 8.1b Cognitive Processes 310
- 8.1c Behavioral Responses 310
- 8.1d Feelings 310

### 8.2 The Range of Human Emotion 311

- 8.2a Plutchik's Emotional Wheel 311

### 8.3 Theories of Emotion 311

- 8.3a The James-Lange Theory 311
- 8.3b The Cannon-Bard Theory 314
- 8.3c The Schachter-Singer Theory 315
- 8.3d The Function of Emotional Expression 316
- 8.3e Facial Feedback and Emotions 316
- 8.3f The Neurobiology of Emotions 320
- 8.3g Opponent-Processes and Motivation 321

### 8.4 Stress 322

- 8.4a The Stress Response 322
- 8.4b Physiological Responses to Stress 324
- 8.4c Stressors 327
- 8.4d Stress and Disease 328

## Cognition: Thinking and Language 339

### 9.1 Thinking 339

- 9.1a Components of Thinking 340
- 9.1b Prototypes and Exemplars 344

## 9.2 Problem Solving 344

- 9.2a Stages of Problem Solving 346
- 9.2b Strategies for Problem Solving 348
- 9.2c Characteristics of Difficult Problems 351

## 9.3 Reasoning and Decision Making 355

- 9.3a Logical Reasoning for Decisions 355
- 9.3b Some Common Causes of Reasoning Errors 357
- 9.3c Subjective Probability and Reasoning for Decisions 358
- 9.3d The Role of Emotion in Decision Making 362

## 9.4 Language 363

- 9.4a Psycholinguistics 364
- 9.4b Theories of Language Acquisition 365
- 9.4c Stages of Language Acquisition 366
- 9.4d Brain Mechanisms for Language 369

# PART 4: DEVELOPMENTAL PROCESSES AND INDIVIDUAL DIFFERENCES

# Chapter 10

## Development: Conception Through the End of Life 379

### 10.1 Developmental Issues 379

- 10.1a Heredity and Environment 379
- 10.1b Continuous versus Stage Development 380
- 10.1c Critical Periods in Development 381

### 10.2 Developmental Research 383

- 10.2a The Cross-Sectional Design 383
- 10.2b The Longitudinal Design 383
- 10.2c The Cross-Sequential Design 384

### 10.3 The Beginning of Life 384

- 10.3a Genes and Chromosomes 385
- 10.3b Genetic Abnormalities 391

### 10.4 Prenatal Development 394

- 10.4a Germinal Stage 395
- 10.4b Embryonic Stage 395
- 10.4c Fetal Stage 395
- 10.4d The Effects of Alcohol and Drugs on Development 395

### 10.5 Physical Development 396

- 10.5a Development of the Brain 397
- 10.5b Physical Growth 399
- 10.5c Motor Development 400

### 10.6 Cognitive Development 401

- 10.6a Piaget's Theory of Cognitive Development 402

### 10.7 Psychosocial Development 408

- 10.7a Attachment 408
- 10.7b Parenting Styles and Social-Emotional Development 412
- 10.7c Erikson's Theory of Psychosocial Development 414

### 10.8 Adolescence 416

- 10.8a Physical Development During Adolescence 417
- 10.8b Cognitive Development During Adolescence 418
- 10.8c Moral Development During Adolescence 419
- 10.8d Psychological Development During Adolescence 423

### 10.9 Adulthood 426

- 10.9a Physical Development in Early and Middle Adulthood 427
- 10.9b Cognitive Development in Early and Middle Adulthood 429
- 10.9c Psychosocial Development in Early and Middle Adulthood 430

### 10.10 The Older Years 432

- 10.10a The Graying of America 432
- 10.10b Physical Development in the Older Years 433
- 10.10c Cognitive Changes in the Older Years 434
- 10.10d Psychological Development in the Older Years 436
